

360-degree Peer Review of Contribution to Team Effort

The submission of the deliverables up to this week required the application of the following three software development, project management and teamwork activities from each colleague in your team:

- Contribution to the design and implementation of the current sprint user stories.
- Contribution to the full range of project development activities (including but not limited to requirements capture, analysis and design, coding, testing and documentation).
- Contribution to group work and sharing of work, including group contract, participating in team and client meetings and preparing minutes, issues created and tracking progress; group interaction with client, including summary of meeting and agreed goals; critique of what has worked well and what needs to improve in terms of XP terms and contribution to all other group activities/processes and assignments

Based on the overall combination of the contribution above, rate your colleagues' as well as your own performance in the activities up to now.

IMPORTANT: You *must* assess all your colleagues as well as your own contribution. Use only whole numbers addressing the criteria below:

0	1	2	3	4	5
No contribution	Below satisfactory in 3 criteria or very poor in any activity	Satisfactory in 1 criteria and poor in 2 activities (none/very poor)	Good in at least 2 criteria and poor in 1 activity	Excellent in at least 1 activity and good in 2 others	Excellent in all 3 activities

	Student ID	Name	Rating 0 to 5	Reason for rating
You	510444907	ELWOOD FONG	5	Excellent in all three activities: led design/implementation, covered full development pipeline (requirements → testing), and consistently coordinated group and client meetings.
2	530784058	CONG THANH VU	3	Good in coding contributions and attended meetings, but limited input on requirements analysis and documentation; performance solid but not across all areas.
3	530800495	HUY LE TRAN	5	Excellent in implementation and testing tasks, actively contributed to design and coding, and was reliable in group discussions and meeting preparations.
4	539484907	THEO MORTAZAVI	5	Strong and consistent contributions across design, coding, and project management activities; active in both technical work and XP practices.
5	530362225	MINH PHUONG PHAM	4	Contributed well to coding and requirements, with some involvement in design; slightly less active in documentation and XP practices but overall strong contribution.
6	520552003	DUC THANH TRUONG	3	Participated in coding and testing, but engagement in requirements capture and XP practices was limited; contributions satisfactory but could be more consistent.
